Bonnie Berkowitz gave a quick update on the solar project. She said more of pieces to the project have been completed on their side and the RMLP side. On the RMLP side, the meter is in, reclosure and air brake switches are up, now it is just the mechanical completion on the solar side to be completed. The intent is to have that complete will be no later than February 21st. Then it is just running in the underground wire to the street and mostly everything complete. Kevin Snow asked if there was any feedback from anyone regarding the placement of the components on the street. Bonnie said no and nothing the RMLP has heard of. Bryan Dipersia asked if there would be an online portal for residence to see the activity at the solar field. Nothing has been decided yet, but Bonnie said something down at Pine Grove School would be great to see in the future.
